

9-17- ^{Herman (cont'd)} not a very strong flyer; he may have to be cuffed under the wing when he comes in the air.

9-18 - release at 7:30 A.M.; not a strong flyer; he landed within the hour; no sight of him in the evening of 9-18.

9-19 - no sight of him; when last seen he was perched on the roof of the church after the outing on the morning of 9-18-19-1916.

9-21 - 10:30 A.M. - I stood by the sun porch and watched the cock bird. I heard a fluttering in the bushes and thought it might be a wild turkey or grouse. Suddenly Herman walked out of the bushes and into the garden path - so carefully aimed and with the remaining strength in his body, flew to the top of the sun porch. Apparently he drove into the house on 9-18-19, when it would appear. FTA-8-1210 was caught by a hawk.

9/22 giving strength after his 4-day stint in the house; he will be all right

he may not be a strong flyer but he is a clever flyer - I have changed his position & direct attack by hawk.
